

### Custom Dashboard

Creates a “unique” dashboard for each investor by recalling initial visits and making them accessible throughout the approved marketing period – eliminating the need to remember and store Deal Access Codes

### Dashboard Filtering

Offers convenient filtering options of personalized lists, to further hone deal selections by various attributes

### Deal Summary

Displays additional transaction details within the video interface, centralizing core marketing information

### Viewing Options

Allows users to select their audio and visual preferences, such as showing a presentation in “slides-only” mode

### Full Screen

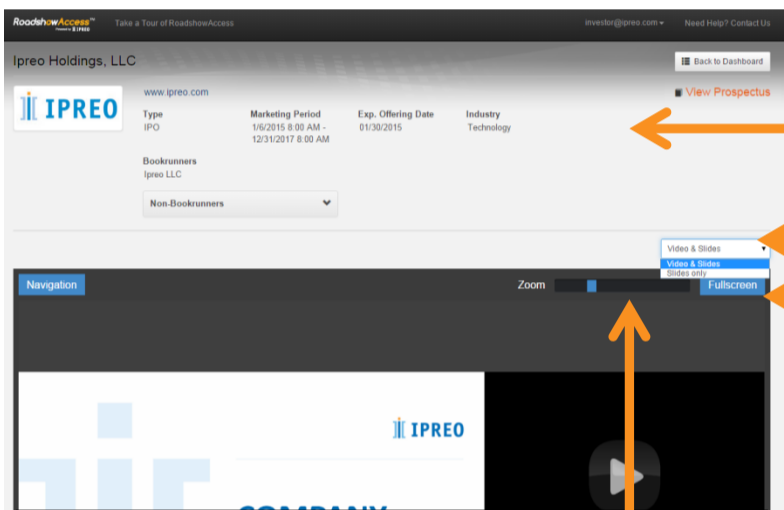

Enlarge video/slide content to occupy the full size of any monitor and mobile device

### Zoom

Scale video and slides to your liking to further magnify either content

### Player Controls

Convenient playback options to control your viewing tempo

### Registration Authentication

Validates investor credentials against Ipreo’s renowned institutional investor database, ultimately yielding pristine viewership metrics for banks and corporate management teams
